Important Information

- Investment involves risks. Past performance does not represent future performance. The price of the fund may go up or down. Investors may suffer all or significant investment losses. Investors should not make any investment decisions solely based on this information. Please note that the investment risks listed below are not exhaustive. Investors should carefully read the prospectus, product key factsheet and relevant documents before making any investment decisions to understand details including product characteristics, risk factors and distribution policies, and seek for independent financial advice when necessary.
- MicroBit Ether Spot ETF (the "Fund") is a sub-fund of MicroBit Funds Series (Hong Kong) ETF OFC (the "Company"). The Manager intends to enhance the performance of the Fund by staking up to 30% of the ether held in the portfolio of the Sub-Fund through SFC-licensed VATPs, that can perform staking activities on its own or by engaging its affiliates or third party staking service providers.
- MicroBit Ether Spot ETF could be subject to certain key risks such as Investment risk; Risks relating to ether (including Ether and ether industry risk, Speculative nature risk, Extremely high volatility risk, Unforeseeable risk, Acceptance of ether, Concentration of ownership risk, Fraud, market manipulation and security failure risk, Cybersecurity risks, Potential manipulation of Ethereum Network risk, Regulatory risk, Internet risk, Fork risk, Virtual Assets' trading platform risk in general and contagion risk; Risk of illicit use, Political or economic crisis risk, etc.); New product risk; Passive investment management risk; Risks associated with staking; Risks in relation to Virtual Asset Trading Platform(s) and Staking Service Provider(s); Custody risk; Risks relating to the Index; Concentration risk; Tracking error risk; Trading hours differences risk; Trading risk; Reliance on market makers risk; Early termination risk; Multi-counter risk.

Investment Objective

The Fund's investment objective is to to aim to provide investment results that, before fees and expenses, closely correspond to the performance of the price of ether as reflected by CME CF Ether-Dollar Reference Rate – Asia Pacific Variant (the "Index") by directly investing in ether on SFC-Licensed VATPs. There can be no assurance that the Fund will achieve its investment objective.
